

Phuong Nguyen

Senior Software Engineer

Ho Chi Minh City, Vietnam | (+84) 932 975 529 | phuong.nguyenanh06@gmail.com | anhphuong.dev | github.com/phuonganguyen | linkedin.com/in/phuong-nguyen-5b214862

SUMMARY

Senior Software Engineer with 11+ years of experience designing and building full-stack web applications and real-time systems across enterprise accounting, sports live-score, gaming, and chatbot domains. Proven track record of leading teams, architecting solutions, and adopting modern technologies — from .NET and Node.js to React / Next.js, Docker, and microservices — to ship reliable products and raise team efficiency.

EXPERIENCE

Assistant Department Manager

Nexcel Solutions

Mar 2025 – Present
Ho Chi Minh City, Vietnam

- Support the Department Manager in overseeing and coordinating department operations.
- Supervise project progress, assign tasks, and ensure quality and deadlines are met.
- Drive solution design and implementation, adopting modern technologies (Docker, .NET, gRPC, n8n, AI tools) to improve efficiency.
- Act as a bridge between teams, facilitating problem-solving and process improvements.
- Guide team members' growth through training, mentoring, and fostering collaboration.

Staff Software Engineer

Nexcel Solutions

Apr 2022 – Mar 2025
Ho Chi Minh City, Vietnam

- Researched and applied new technologies to the agency's website, introducing fresh enhancements and improved user experiences.
- Reviewed code and led the release of new features.
- Diagnosed and resolved issues in production environments.
- Participated in maintenance and on-call standby work.

Senior Software Engineer

Lumiplus Software Solutions

Apr 2020 – Mar 2022
Ho Chi Minh City, Vietnam

- Led a team of 5 in developing an HTML game for Vietnamese users using Next.js, Sass, and CSS animation.
- Researched and applied new technologies to the product.
- Core member of the Game Development team; helped design a front-end and back-end game framework with Cocos Creator, NestJS / Node.js, Socket.IO, and MongoDB.

Software Engineer

Nexcel Solution

Dec 2016 – Mar 2020
Ho Chi Minh City, Vietnam

- Built a real-time, mobile-friendly sports live-score web application using ReactJS, Next.js, and Sass.
- Developed a chatbot backend service integrated with the company's system using ASP.NET Core, microservices, and webhooks.
- Full-stack developer for major features of the Accounting and Reporting systems.
- Refactored legacy projects, reduced technical debt, and improved code quality.
- **Awarded Employee of the Quarter.**

Software Engineer

CSC Vietnam (DXC Technology)

Sep 2014 – Dec 2016
Ho Chi Minh City, Vietnam

- Developed a next-generation Registration Tracking & Management tool, implementing core advanced-search, validation, and reporting functions.
- Collaborated with the on-site team to propose system solutions using ASP.NET, AJAX, WCF, SignalR, NHibernate, Oracle, and NUnit.
- **Awarded Best Performance.**
